Terrains and maps

All the competition areas are situated in the JWOC 2023 areas neighborhood.

The sprint competition area is located in Baia Mare and is typical of a city district, with a crowd of streets, alleys and buildings. Runability is very good. About 90 percent of running is on asphalt, sports shoes without spikes are recommended. Map is done in 2022 and updated in 2023, scale 1:4,000/0m.

The competition areas for the middle and long distance events are located 20 km from Baia Mare, near the Baia Sprie-Cavnic road and are very varied, with open, semi-open and forest terrain, all with different degrees of inclination. Runability is generally good and very good. Maps were done in 2023 by Liviu Tintar and Istvan Foldi, the contours were made with LIDAR technology. The scale is 1:7,500/5m or 1:10,000/5m for all categories, with the exception of categories MW20 and MW21, which will have a scale of 1:15,000/5m in the long-distance stage.

Time keeping:

-Sport Ident Air+ will be used in all stages;

Stage 1 – Middle distance, 05.05.2023, start - 11.00

Location = 18 km from Baia Mare, Google coordinates of the parking: [47.634380, 23.749678](https://www.google.com/maps/place/47.634380,23.749678)

- sportident stations will operate in Air+ system
- bottled water will be provided upon arrival, there are no hydration points on the courses
- the M10 and F10 courses will be marked with white-red tape
- it is very possible that small last minute constructions of sheepfolds will appear, they are not mapped, which, however, will not influence the routes.
- there will be ecological toilets at the parking lot and finish.

Stage 2 – Long distance, 06.05.2023, start - 10.00

Location - 24 de km from Baia Mare. The access from Baia Mare – Căvnic road will be marked according to the sketch, Google coordinates of the parking and finish:

[47.623445, 23.798044](https://www.google.com/maps/place/47.623445,23.798044)

Căvnic 3 km

Indicator

Baia Mare 23 km

- water will be provided upon arrival and there are 4 hydration points on the course, one at a control post and 3 points at the main crossings.
- it is very possible to appear small constructions of sheepfolds, unmapped, which, however, will not influence the routes.
- the M10 and F10 courses will be marked with the white-red tape.
- the SportIdent stations will operate in air+ system.
- there are ecological toilets at the finish, but there are no ecological toilets at the start.

Important!!! There will be 2 STARTS:

- Start 1: **finish – start 750 m, 120 m climb! Make sure you get to the start in time!**
- Start 2: finish - start 200 m, 15 m climb.

In the table with the technical data you can also find the start number for each category.

Stage 3 – Sprint, 07.05.2023, start - 10.00

- Google coordinates of the parking and finish: [47.647889, 23.560066](https://www.google.com/maps/place/47.647889,23.560066) , in the yard of the Gimnazial School “Dimitrie Cantemir” Baia Mare.
- the quarantine will start at 9.40, all competitors are required to enter the start area before this time.
- Distance from finish area to quarantine area is 50 m.
- it is recommended equipment specific to sprint races, with running shoes without spikes.
- Sportident stations will operate in Air+ system.
- there are toilets at the quarantine and finish area.
- water will be provided upon arrival, there are no hydration points on the courses.
- the M10 and F10 courses will be marked with white-red tape.
- the traffic in the area is low, it will not be stopped, we recommend running on the sidewalks, but at the main crossings the traffic will be supervised by the organizers.

The lengths of the courses are measured on straight line. For elite categories M20,21 and F20,21 lengths are:

Categ.	Straight route lenght	Best route lenght
F/W 20, 21	2,3 km	3,2 km
M 20, 21	2,8 km	4,0 km
